What is Newtisa?

Newtisa is a white-glove service that can set up all of your client's utilities and home services with a single phone call. Simply click "Submit Referral" (in the top right corner of this page) and fill out the form to send us your client's basic information and we'll do the rest!

Stress-Free Clients

Your client will be assigned their own personal Newtisa specialist that will be with them from start to finish. This specialist will research all available service providers, and offer a solution that is custom-tailored to their needs. We will eliminate potentially over a dozen phone calls saving them time and reducing stress.

Our Partnerships

If you become a Newtisa partner, you will be able to offer this service to all of your clients for FREE and there's no catch. We have special relationships with our service providers wherein they pay us to bring them qualified customers. We are like a broker that simply shops for the best deals.

How Does Newtisa Work?

SUBMIT REFERRAL

Approximately 3 weeks prior to the closing date, submit client info by clicking "Submit Referral" in the top right corner of the NEWTISA.com site.

RESEARCH AND PREPARATION

Newtisa will research all available service options and prepare accordingly. It's this preparation time that allows us to minimize the amount of time your client spends on the phone.

CONSULTATION

Your client will be contacted and on this call Newtisa will offer the best options according to their requests. Once your client chooses the best services and promotions for their needs, we take care of the rest.

SERVICE ACTIVATIONS

Newtisa will then schedule & coordinate the installations of each service requested to fit their schedule. Not the other way around.
