### Licensed Barbers/Stylists Only!

Our app is designed specifically for licensed barbers and stylists that don't have enough time or resources to manage a complicated appointment scheduling software on top of a POS system, Google Reviews and more.

Furthermore, we focus our app on BARBER APPOINTMENTS ONLY. Not dentists, nail salons, massage parlors, etc.

We're proud to say that we're the only app focused on helping licensed barbers manage and grow their businesses with ease.
