Create Customized Forms

Anymouse allows you to create custom forms and organize them from the Anymouse web interface. Invite users and submit custom reports from anywhere at any time on iOS and Android devices.

Google Cloud
Partner

Gather Data You Need

Customize your forms, attach an image, track time, location, and priority level. Create and attach Anymouse generated QR codes to items for faster reporting. No data connection? Anymouse will upload your report when you reconnect.

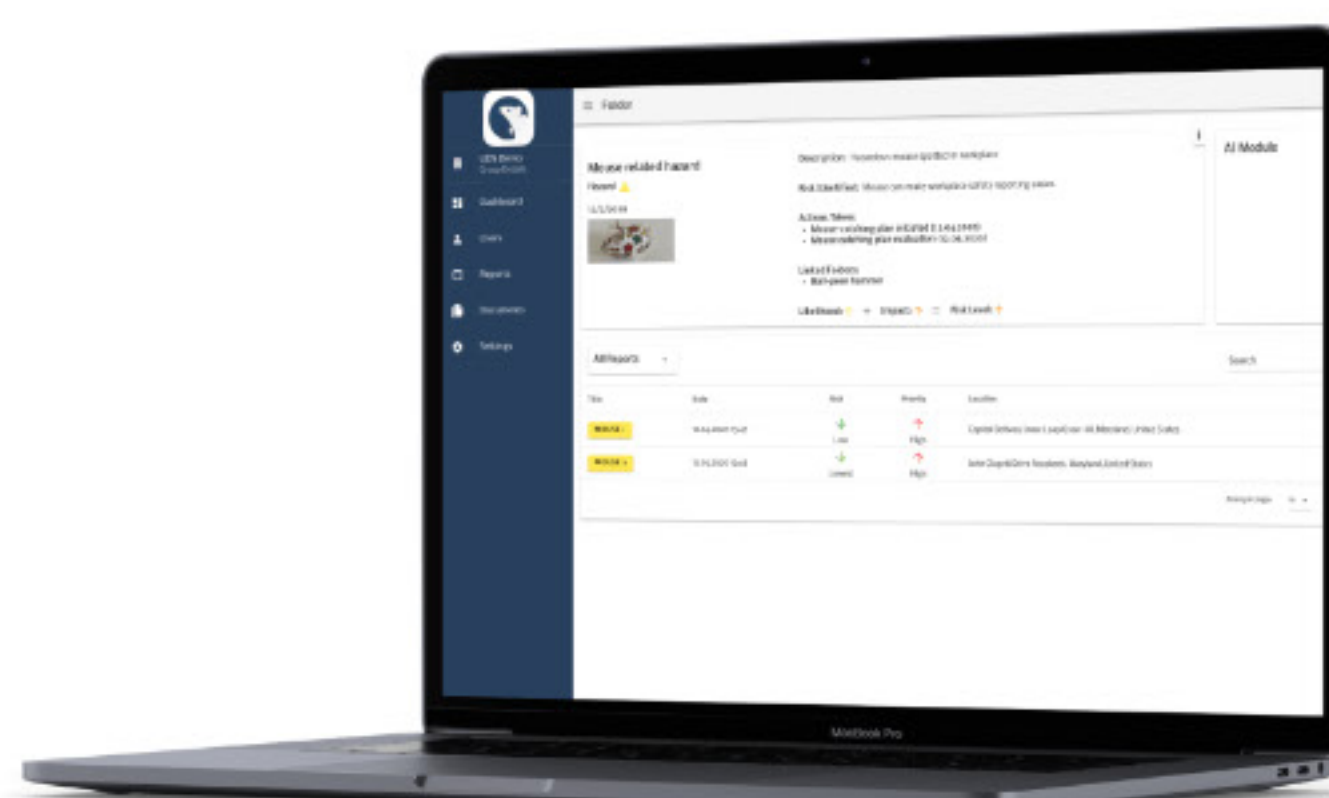

Allow for Anonymous Submissions

Utilizing a company QR code, allow anyone to submit a report to your company account. Anonymous submissions can help build trust.
