We were in need of an 8' fence along our 90' side yard, with two 8' gates for entry at the front and back. Roman and team to the rescue! Roman showed up on time to take a look and provide a proposal. He was knowledgeable and professional, and we decided immediately that this was the right company for the job. We had 9 stumps from "heavenly trees" (those terrible, propagating ones) that they had to work around for the posts. No problem. Uneven ground, no problem. And an 8' fence, posts in on an incredibly windy day, no problem. The gates, also at 8', no problem! The team at Denver Fence Specialists had the entire job done in less than 3 days, and the fence is beautiful. Roman and the DFS team are punctual, thorough in their work, super polite, professional in every way. We've done a lot of projects but this went the smoothest, and the fastest. We HIGHLY RECOMMEND Denver Fence Specialists!

Roman , owner and crews are honest, hard working and they really care about their clients. They have plenty of expertise and use high quality materials and very organized. Sometimes they are slammed with jobs, so you might have to wait to get on schedule, But well worth it. The team is also very professional. Only unreasonable clients would be dissatisfied with their work ethic.
